

Grant Application: Food Truck Batteries

The Regional Air Quality Council is awarding grants to food truck operators to replace their gas, propane, or diesel generators with batteries. Food trucks that work in Adams, Arapahoe, Broomfield, Boulder, Denver, Douglas, and/or Jefferson County are eligible. Grants can pay for the cost of the batteries and installation. The RAQC will pay for 80% of the battery systems and installation, up to \$20,000.

Funds will be provided to food truck operators as a reimbursement after the battery purchase, installation, and recycling of the old generator. Before applying, please determine the price of the battery, or batteries, you would like to purchase. **You must pay at least 20% of the cost of the system and installation.**

*Pursuant to "Domestic preference for procurements (2 CFR 200.322)" we prefer applications with materials produced in the United States
